Assistant/Associate Professor of Microbiology
University of Wisconsin-Madison

The Department of Pathobiological Sciences, School of Veterinary Medicine, University of Wisconsin-Madison is seeking candidates for an Assistant Professor or early-stage Associate Professor tenure-track faculty position in the field of infectious diseases, with a research focus in bacteriology. Potential areas of research include, but are not limited to, bacterial pathogenesis, epidemiology, emerging and zoonotic bacterial diseases, food safety, and the genomics and metagenomics of bacterial disease in animals and people. Minimum requirements include a DVM/PhD, PhD, and at least 2 years of postdoctoral or equivalent experience in a relevant field. The selected candidate will be expected to develop an independent extramurally funded nationally-recognized research program, participate in graduate student training, and teach in the veterinary microbiology courses, or other courses in the Department. In addition, participation in departmental and university service and commitment to fostering a diverse academic environment are expected. Salary and start-up packages will be commensurate with the rank and experience of the selected individual.

The Department is one of four within the School of Veterinary Medicine (http://www.vetmed.wisc.edu/) and consists of 27 faculty members with expertise in infectious diseases (immunology, parasitology, bacteriology, virology, epidemiology, and public health) and comparative pathology (anatomical and clinical). Faculty within the Department and School participate in training graduate students in the Comparative Biomedical Sciences and other campus graduate programs. They also serve as trainers on a variety of NIH training grants administered through the School or other units on campus. The UW-Madison has a long tradition of excellence in research and graduate training. It accepted over $1.1 billion in research awards in 2017 and ranks sixth in the nation for research expenditures. The campus culture of collaboration and collegiality and the pleasant lifestyle offered by Madison, WI provide an outstanding environment in which to embark on an academic career.

Interested applicants should apply at the appropriate following online application site:

http://jobs.hr.wisc.edu/cw/en-us/job/498613/professor

You will be asked to supply 1) cover letter with a brief description of your experience in the field; including two page research plan and one page teaching philosophy; 2) detailed curriculum vitae; and 3) request three referees to send letters of recommendation directly to the Search Committee at pbs-admin@vetmed.wisc.edu.

For full consideration, the application should be received by September 30, 2018, but applications will be considered until the position is filled. For specific questions regarding this position, contact: Dr. Adel Talaat, Search Committee Chair, at adel.talaat@wisc.edu. For information on the School and Department please visit http://www.vetmed.wisc.edu/.

The University of Wisconsin is an AA/EOE. All qualified applicants, especially women and underrepresented minority candidates, are encouraged to apply.
